

COMPANY'S OVERVIEW

ABOUT US

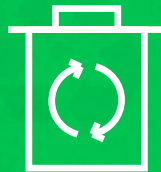

We are a leading company with over 40 years of experience specialized in consultancy services, design and the implementation of solutions for comprehensive waste management in accordance with local, national and international regulations.

OUR SERVICES

BUYING & SELLING

WASTE MANAGEMENT

CONSULTANCY

BUYING & SELLING

We buy and sell supplies to and from local and international companies conforming to high quality standards, providing our customers with a wide range of solutions.

WASTE MANAGEMENT

AUTOMATIC COMPACTION AND BALING

We work with cutting-edge technology aimed at satisfying our customers' needs. Our paper crusher and compactor is state-of-the-art in our country and can crush up to 8 tons of paper per hour in the presence of our customers.

COLLECTION OF RECYCLABLE MATERIALS

We have a fleet of trucks duly authorized by the National Administration of Environmental Affairs (DINAMA), the City Council of Montevideo and the Local Government of Canelones, with over 60 dump trucks that can carry up to 16m³ by using a ROLL ON-OFF system for the collection of recyclable waste. We also have a fleet of smaller mobile dump trucks for the disposal of different materials which are collected and replaced when needed.

COLLECTION OF RECYCLABLE MATERIALS AND TRANSPORTATION OF WASTE FOR FINAL DISPOSAL

We have a fleet of trucks duly authorized by the National Administration of Environmental Affairs (DINAMA), the City Council of Montevideo and the Local Government of Canelones. We offer an efficient and reliable service through 60 dump trucks that can carry up to 16m³ by using a ROLL ON-OFF system, capable of storing, transporting and making final disposal of waste. We ensure full GPS traceability of all waste from its point of origin up to its final disposal in accordance with current regulations.

Also, we help companies with the process of obtaining a form called Request for the Final Disposal of Solid Waste before the SECCA authorities (Environmental Quality and Control Assessment Service).

AUTOMATIC COMPACTORS

We work with cutting-edge automatic compactors that can compact waste in a clean and safe way, maximizing the order and the hygiene of the area without the need of permanent personnel.

COMPACTION AND BAILING MANAGEMENT FOR COMPANIES

We offer consultancy services on practical waste management within the company's facilities, achieving high standards of storage and hygiene by compacting waste and clasifying it in categories.

CONFIDENTIAL DESTRUCTION

A unique, flexible service that provides maximum guarantees in terms of security and confidentiality in the collection and destruction of documents.

E-WASTE - ELECTRICAL & ELECTRONIC DEVICES

A specific management service for this type of waste which is carried out in accordance with national and international regulations.

MOBILE CAR CRUSHERS

A state-of-the-art mobile car crusher which significantly reduces large volumes of scrap metal in a quick, efficient way and with national coverage

SCRAP GLASS MANAGEMENT

Our company has the technical knowledge and alternative means to manage this kind of waste within a recycling process, thus preventing glass from being disposed of either as float glass or as glass bottles.

SCRAP PLASTIC MANAGEMENT

We have developed a highly-qualified department whose members have years of international experience in buying and selling a wide range of scrap plastic, thus meeting the demand of different companies from all over the world which use this resource as raw material for their industry.

CONSULTANCY

CONSULTANCY ON ENVIRONMENTAL ISSUES AND WASTE MANAGEMENT

We offer a comprehensive service through highly-qualified technicians focused on finding solutions for environmental issues and waste management within companies.
